Birth day:
03/03/2002

ABOUT ME

I am an advanced Computer Engineering student with a special interest in web application development and full-stack technologies. I am currently in my final year of college, with a solid foundation in programming, databases, networks, and systems architecture. I stand out as a responsible, proactive, and highly skilled team player. I am looking for an opportunity that will allow me to apply my knowledge, gain professional experience, and continue to grow within the IT sector.

MORE INFO

_ Willing to learn new technologies.
_ Advanced oral and written English.

Computer Engineering Student
Web developer

STUDIES

National University of Tucuman (2020 - present)
5th year of Computer Engineering Degree.

Argentina Programa 4.0 (2022-2023)
Full stack web programmer (Angular + Spring Boot Java)

Secondary School (2015 - 2019)
Bachelor with humanistic orientation and social sciences

SKILLS

🖥 Software Development
- Proficiency in programming languages: Java, Python, C, C#, JavaScript, and TypeScript
- Object-oriented and structured programming
- Knowledge of data structures, algorithms and applied statistics
- Software modeling using UML

🌐 Web Technologies and Frameworks
- Front-end development with React, Angular and Next.js
- Back-end development with Node.js, NestJS, Spring Boot and .NET
- Handling HTML5, CSS3 and web interface design

💾 Databases
- Managing relational databases: MySQL
- Basic knowledge of SQL modeling and queries

🔧 Systems and Hardware
- Knowledge of computer architecture and microprocessors
- Computer maintenance, assembly, and repair
- Software installation and configuration

🌐 Networks and Communications
- Knowledge of network topologies and structured cabling
- Basic TCP/IP network configuration

🛠 Tools and Others
- Version control with Git
- Handling office tools: word processors, spreadsheets, and presentations
- Basic video editing
- Using artificial intelligence tools to:
  - Code generation, debugging assistance, and technical documentation (e.g., GitHub Copilot, ChatGPT)
  - Task automation, content generation, and functional prototypes

🤝 Soft Skills
- Teamwork and interdisciplinary collaboration
- Problem solving and critical thinking
- Good written and oral communication
- Good interpersonal relationships
- Adaptability to dynamic environments

EXPERIENCE

Instituto de Previsión y Seguridad Social de Tucuman (2023 - 2024)

Help Desk Intern

Freelancer (2024 - now)

Full Stack Developer React + Node

LANGUAGES

Spanish:
Native.

English:
Advanced level.
